EDUCATION

Le Wagon Tokyo
Full-Stack Web Development
Jul 2023 - Sep 2024

Southville International School and Colleges
B.Sc. in Tourism Management
May 2012 - Jan 2016

TECHNICAL SKILLS

Frontend: HTML | CSS / SCSS | JavaScript | Next.JS | Sass | Bootstrap | Tailwind | Vue.js | Nuxt.js | React.js | Next.js
Backend: Ruby | Ruby on Rails | PostgreSQL | MySQL | Spring Boot
Tools & Deployment: Git/GitHub | Heroku | Netlify | Vercel | Webpack | Yarn | Docker | VS Code | Git | GitHub/Backlog | MS Teams | Slack | ESLint | NPM | Vite | Figma | Canva

AREA OF EXPERTISE

- Full Stack Development
- Front – End Development
- Back – End Development
- Responsive Web Design
- User Experience (UX) Optimization
- Database Management
- API Development and Integration
- Agile Development
- Software Architecture
- Code Quality and Best Practices
- Version Control and Collaboration
- Continuous Integration/Continuous Deployment (CI/CD)
- Testing and Debugging
- Performance Optimization
- Security Best Practices
- Client Requirements Analysis

LANGUAGES

- Japanese – JLPT N3
- English – TOEIC 895
- Tagalog – Native

PROFILE SUMMARY

Dynamic Full Stack Web Developer with expertise in designing and developing scalable, user-focused web applications. Proficient in front-end and back-end technologies, including Java, Spring Boot, and MySQL/PostgreSQL, combined with a deep understanding of Agile methodologies and the software development life cycle (SDLC). Experienced in creating custom solutions tailored to unique business requirements, analyzing client challenges, and delivering optimized systems. Adept at collaborating with cross-functional teams and stakeholders to ensure seamless project execution and impactful results. Skilled in problem-solving, system development, and web performance optimization, with a passion for continuous learning and innovation. Demonstrates leadership experience and a commitment to delivering secure, accessible, and responsive web solutions that drive business success.

PROFESSIONAL EXPERIENCE

Tierline Inc. (株式会社ティアライン)
Full-Stack Web Developer   Oct 2024 – Present

- Design, develop, and deploy scalable web applications using React, Spring Boot, and MySQL, enhancing performance, user experience, and overall system reliability.
- Collaborate with cross-functional teams to gather requirements, implement features, and optimize existing systems using Java, JavaScript, TypeScript, and Tailwind CSS.
- Create a web-based employee management system utilizing Java Spring Boot, React, and Docker, streamlining company operations and improving productivity.
- Build custom full-stack solutions tailored to client-specific needs, integrating RESTful APIs, microservices architecture, and cloud-based platforms like AWS for scalability.
- Utilize tools like GitHub, Backlog, and Docker to manage code, automate deployments, and ensure consistent delivery of high-quality web applications.
- Conduct code reviews and technical discussions to refine product quality, ensuring alignment with Agile methodologies and development best practices.
- Develop a flexible, cloud-based POS system, leveraging innovative design and advanced technologies to meet the needs of multiple industries effectively.

Watanabe Construction Industry Co. (株式会社渡部建設業)
Scaffolder   Apr 2016 – Jan 2020
Construction Foreman   Jan 2020 – Jun 2024

- Supervised and managed construction teams to complete complex scaffolding and building projects within strict deadlines, ensuring safety and quality compliance.
- Designed, assembled, and inspected scaffolding systems in alignment with industry regulations and project specifications, enhancing site safety and operational efficiency.
- Coordinated with project managers, engineers, and contractors to optimize workflows, resolve challenges, and maintain project schedules effectively.
- Trained and mentored team members on scaffolding techniques, safety protocols, and equipment usage, fostering a culture of collaboration and skill development.

PROJECTS

Personal Portfolio Website
- Developed and deployed a fully responsive multi-page portfolio website to highlight full-stack web development expertise.
- Integrated advanced front-end technologies to ensure optimal performance, cross-browser compatibility, and accessibility compliance. Leveraged cloud deployment for scalability and reliability.
Technologies: React, Next.js, Tailwind CSS, Vercel, RESTful APIs, Git, GitHub

Personal Relations Manager (PRM)
- Engineered a robust Personal Relations Manager application combining CRM capabilities with streamlined mobile contact management.
- Designed features such as task tracking, event scheduling, and secure user authentication. Optimized the back-end for high performance and seamless PostgreSQL database integration, enhancing scalability and system reliability.
Technologies: Ruby on Rails, Ruby, PostgreSQL, HTML, CSS, JavaScript, Agile Methodologies, API Integration,
